About Me

I recently graduated with a Bachelor's degree in Computer Science from Debre Berhan University. Throughout my academic journey, I have gained a solid foundation in programming languages such as Java, C++, and Python, as well as a deep understanding of algorithms, data structures, and software development methodologies. I have also had the opportunity to work on various projects, both individually and in teams, which have enhanced my problem-solving and analytical skills. I am eager to apply my knowledge and continue learning in a professional setting, and I am confident that my educational background and passion for technology make me a strong candidate for opportunities in the industry.

EDUCATION

Debre Berhan University

Bachelor of Science Degree in computer science with CGPA 3.92 and passed Exit Exam with score 74%.
2019-2023

EXPERTISE

- Programming Languages: Java, C++, Python
- Web Development: HTML, CSS, JavaScript
- Teamwork and Collaboration
- Strong Communication Skills
- Continuous Learning and Adaptability

EXPERIENCE

IE Network Solutions

Addis Ababa- Ethiopia

2022

During my internship at IE Network Solutions, I had the privilege of working in the Business Automation and Intelligence (BAI) team. Primary focus was on revolutionizing business operations by systematically replacing manual processes with intelligent rules-driven automation, enabling just-in-time analysis, and fostering open collaboration. In this role, I actively engaged with PowerApps, SharePoint, and Tableau.

Through my experience with the BAI team, I developed a keen understanding of how intelligent automation and data analysis can significantly enhance efficiency and effectiveness across various business domains.
